FOREWORD

The Countryside in Figures - Sultan Kudarat Province 2024 Edition (CIF 2024) is a ready reference for development planners and decision-makers for statistics crucial for planning and decision-making at the local level.

The 2024 edition contains updated data on the seven major areas, namely: General Information, Income and Expenditures, Agriculture, Health, Nutrition and Vital Statistics, Education, Fiscal Administration, and Public Order and Safety. The 2024 edition contains population counts down to the barangay level including available socio-demographic characteristics about the province based on the results of the 2020 CPH.

Other new features are the 2018-2022 Provincial Product Accounts of the Province. The publication of the ***CIF 2024*** is in line with the continued commitment of the Philippine Statistics Authority - Sultan Kudarat Provincial Office to provide local planners and decision-makers with accurate, timely, reliable and relevant statistics that would support crafting of more responsive programs and policies for the betterment of the lives of the people in Sultan Kudarat Province.

MESSAGE

In line with its commitment to provide relevant and more disaggregated statistics at the local level, the **Philippine Statistics Authority (PSA)** through its Sultan Kudarat Provincial Office, has come up with the publication, ***The Countryside in Figures: Sultan Kudarat Province, 2024 Edition***.

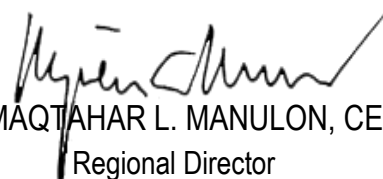

This publication has been patterned after the national version of the publication “The Countryside in Figures”. The publication, which contains relevant statistics and indicators about the performance of the province, serves as a useful tool for planners, investors, and researchers in the province of Sultan Kudarat.

This 2024 edition is an updated version of the 2023 Countryside in Figures that provides provincial data on the following: General Information, Income and Expenditures, Agriculture, Health, Nutrition and Vital Statistics, Education, Fiscal Administration and Public Order & Safety. This publication also contains latest population counts down to barangay level as well as available socio-demographic characteristics based on the results of the 2020 Census of Population and Housing (CPH). Further, this publication contains indicators showing the performance of Sultan Kudarat with those of the other three provinces of SOCCSKSARGEN Region, and the rankings of its 11 municipalities and lone component city based on their socio-economic performance. Sectoral highlights are also included to guide data users in their analysis.

We hope that this publication will serve the need for more comprehensive statistics useful in planning, decision making and policy setting towards more effective local governance and inclusive growth. Further, we hope that ***The Countryside in Figures: Sultan Kudarat Province, 2024 Edition*** will further increase the awareness and appreciation of local government units and the public in general, on the importance and value of statistics.

Congratulations to PSA – Sultan Kudarat for this noble effort!

Brief Information about the PSA

The Philippine Statistics Authority (PSA) was established on September 12, 2013 pursuant to Republic Act (RA) 10625, otherwise known as the Philippine Statistical Act of 2013. The PSA is a merger of four (4) government statistical agencies namely: National Statistics Office (NSO), National Statistical Coordination Board (NSCB), Bureau of Agricultural Statistics (BAS) and Bureau of Labor and Employment Statistics (BLES).

Mandate

The PSA shall primarily be responsible for the implementation of the objectives and provisions of R.A. 10625, R.A. 11055, and R.A. 11315.

It shall plan, develop, prescribe, disseminate, and enforce policies, rules and regulations, and coordinate government-wide programs governing the production of official statistics, general purpose statistics, civil registration services and inclusive identification system.

It shall be responsible for all national censuses and surveys, sectoral statistics, community-based statistics, consolidation of selected administrative recording systems, and compilation of national accounts.

VISION

Solid, responsive, and world-class authority on quality statistics, efficient civil registration, and inclusive identification system

MISSION

Deliver relevant and reliable statistics, efficient civil registration services and inclusive identification system for equitable development towards improved quality of life for all.

CORE VALUES

INTEGRITY

We observe the highest standards of professional behavior by exemplifying impartiality and independence in everything we do. We stand firm with undue influence - ensuring integrity cuts across not only in the statistics we deliver, but more importantly, in our people.

TRANSPARENCY

We ensure transparency in all interactions and transactions to build and nurture trust inside and outside the PSA. We strive for clear communication, shared knowledge, and informed, all inclusive decisions for cultivating mutual respect at all levels of the organization.

ADAPTABILITY

We respond to change with a positive attitude and willingness to learn new ways to deliver our mandate. We stay on top of technological advancements and never give up in the face of challenges, instead finding them as opportunities to discover and gain insights to further our services to the public.

QUALITY POLICY

We, the Philippine Statistics Authority (PSA), commit to deliver relevant and reliable statistics and efficient civil registration services and inclusive identification system to our clients and stakeholders.

We adhere to the United Nations Fundamental Principles of Official Statistics in the production of quality general-purpose statistics.

We commit to deliver civil registration services and inclusive identification system in accordance with the laws, rules and regulations, and other statutory requirements.

We endeavor to live by the established core values of the PSA and adopt the appropriate technology in the development of our products and delivery of services to ensure customer satisfaction.

We commit to continually improve the effectiveness of our Quality Management System towards equitable development for improved quality of life for all.

PROFILE OF SULTAN KUDARAT PROVINCE

The Province of Sultan Kudarat was created on November 22, 1973 pursuant to Presidential Decree No. 341.

The Province is named after the famous sultan of Maguindanao, Sultan Mohammed Dipatuan Kudarat. It is composed of 11 municipalities and one city. It is situated between the provinces of Maguindanao and Cotabato on the north and South Cotabato and Sarangani on the south. In 2020 Census of Population and Housing (2020 CPH), the province has a total population of 854,052 and 202,813 households with an average household size of 4.2 members.

The province has a total land area of 5,363.86 sq. km. The soil topography of the province ranges from plain and rolling to hilly and mountainous. The coastal towns of Lebak, Kalamansig and Palimbang in the western side are lined by mountain ranges that wall the central portion of the province from the sea. Its soils are favorable for the cultivation of all kinds of crops especially for rice and corn. Major crops are palay, corn, coffee, coconut, banana, african palm oil and sugar cane. Climate in the province is characterized by a short dry season of one to three months while the rainfall is evenly distributed throughout the year. The province is considered free from typhoons.

The province has some of the richest fishing grounds and vast brackish and fresh water areas in the region. The Celebes Sea at the western side of the province is the major source of fish including bangus and tuna fish. Others are Lake Buluan, existing marsh areas and numerous rivers and creeks.

The province is blessed with abundant water resources that could be utilized for drinking water, irrigation, hydropower and inland fish production and recreation purposes. There are 16 known big rivers including Ala River, Lulaman and Kabulnan rivers.

THE MUNICIPALITIES

For indicators where higher levels are desirable such as local government financial resources, agricultural production, access to water facilities, data and rates were ranked from highest to lowest. Indicators where lower levels are desired such as population density, mortality rate, and other related indicators, data and rates were ranked from lowest to highest. For same indicators where two or more city/municipalities have the same levels were given same rank.

Poverty Situation

The Countryside in Figures: Sultan Kudarat Province, 2024 Edition

- Since 2009, the Municipality of Palimbang had the most number of poor as 60.5 for every 100 of its constituents were considered poor. Aside from Palimbang, five (5) municipalities in Sultan Kudarat recorded a statistical number of poor individuals at least half of their population also considered poor, those municipalities were Lebak (54.0), Kalamansig (53.8), Lambayong (51.7), Senator Ninoy Aquino (51.0) and Comulbio (50.3).
- In 2018, all municipalities in the province were able to cut their incidence of poverty. Lebak has the highest cut with 19.3 percentage points from 54.0 in 2015 to 34.7 in 2018, followed by Lambayong with a cut of 17.1 percentage points, Columbio with 14.1 percentage points, Senator Ninoy Aquino with a cut of 12.8 percentage points and Kalamansig with 11.6 percentage cut compared to 2015.
- The least poor municipalities in Sultan Kudarat in 2018 were Isulan (with 20.6 poverty incidence) followed by President Quirino (26.7).
- In 2003, in terms of degree of poorness or severity of poverty, this was remarkably noted in the municipalities of Sen. Ninoy Aquino at 9.5 percent followed by Palimbang (8.8%), Bagumbayan (7.9%), Columbio (7.3%) and Kalamansig (7.0%)
- In 2003, in terms of poverty gap or the average increase in total income needed, which when appropriately distributed to the lower income groups will eliminate poverty, the cost of eradicating poverty when shared by each family was heaviest in Sen. Ninoy Aquino at 21.7 percent income shortfall with respect to the poverty threshold. This means that we need to increase the income of the poor families in Sen. Ninoy Aquino by 21.7 percent, 20.4 percent in Palimbang, 18.5 percent in Bagumbayan, 17.4 percent in Columbio (17.4%), 16.9 percent in Kalamansig, 16.8 percent in Esperanza (16.8%) to elevate them from the poverty line.
- In 2003, the biggest improvement in terms of reducing income shortfall with respect to the poverty line (poverty gap) was noted among poor families in Lebak with a reduction of 13.9 percentage points from 2000. Lebak was followed by Lutayan (12.6 percentage points), Columbio (11.5 percentage points), and Kalamansig (11.4 percentage points).

Glossary of Terms

GENERAL INFORMATION

Household – a social unit consisting of a person living alone or a group of persons who sleep in the same housing unit and have a common arrangement in the preparation and consumption of food.

Household Population – the population enumerated in private households during a census.

Household Size – number of usual members in a private household.

Human Development Index – a measure of how well a country has performed, not only in terms of real income growth, but also in terms of social indicators of people's ability to lead a long and healthy life, to acquire knowledge and skills, and to have access to the resources needed to afford a decent standard of living.

Medium Assumption – moderate fertility decline and mortality decline.

Population – total number of individuals in a territory at a specified time. It covers both nationals and aliens, native and foreign-born persons, interneers, refugees and any other group physically present within the borders of a country at a specified time. In assembling national demographic statistics for publication, the basic aim has been to obtain data for the physically present (or de facto) population rather than for the legally established resident (or de jure) inhabitants.

Population Census – the total process of collecting, compiling, evaluating, analyzing and publishing demographic, economic and social data pertaining to all persons in the country or in a well-limited territory.

Population Density – refers to the number of persons per unit of land area (usually in square kilometers). This measure is more meaningful if given as population per unit of arable land.

Population Growth Rate – indicates how fast a population increases or decreases as a result of the interplay of births, deaths, and migration during a given period of time. Where the population is closed, meaning no migration, the population growth rate is the same as the rate of natural increase, i.e., the difference between the number of births and the number of deaths during a specified period of time. The three methods for computing the rate of growth based on the assumption with respect to the change are: arithmetic change, geometric change and exponential change.

Population Projection – computation of future changes in population numbers, given certain assumptions about future trends in the rates of fertility, mortality and migration. Demographers often publish high, medium, and low projections of the same population based on different assumptions of how these rates will change in the future.

INCOME AND POVERTY SITUATION

Annual Per Capita Poverty Thresholds – is the minimum income required for a family/individual to meet the basic food and non-food requirements.

Income Gap – the average income shortfall, expressed in proportion to the poverty threshold, of families/individuals with income below the poverty threshold.

Severity of Poverty (SP) - the total of the squared income/expenditure shortfall (expressed in proportion to the poverty threshold) of families/individuals with income/expenditure below the poverty thresholds, divided by the total number of families/ individuals.

Consumer Price Index (CPI) – measure of the average changes in the prices of a fixed basket of goods and services usually purchased by households for their consumption.

Family – a group of persons usually living together and composed of the head and other persons related to the head by blood, marriage or adoption. It includes both the nuclear and extended family.

Family expenditures – refer to the expenses or disbursements made by the family purely for personal consumption during the calendar year. They exclude all expenses in relation to farm or business operation, investment ventures, purchase of real property and other disbursements which do not involve personal consumption.

Family size – number of members present in the family.

Magnitude of the Poor – the number of families or the population whose annual per capita income falls below the subsistence/poverty threshold.

Per Capita Income – is obtained by dividing the total family income by the number family members.

Poverty Incidence – proportion of families/population whose annual per capita income falls below the annual per capita poverty threshold to the total number of families/population.

Poverty Threshold – annual per capita income required or the amount to be spent to satisfy nutritional requirements (2,000 Kcal) and other basic needs.

Poverty Gap – the total income/expenditure shortfall (expressed in proportion to the poverty threshold) of families/individuals with income/expenditure below the poverty threshold, divided by the total number of families/individuals.

Subsistence Incidence – proportion of families/population whose annual per capita income falls below the annual per capita food/subsistence threshold to the total number of families/population.

Subsistence and Food Threshold – annual per capita income required or the amount to be spent to satisfy nutritional requirements (2,000 Kcal).

The Countryside in Figures: Sultan Kudarat Province, 2024 Edition

Total Family Income – includes primary income and receipts from other sources received by all family members during the calendar year as participants in any economic activity or as recipients of transfers, pensions, grants, etc.
