

SPECIAL RELEASE

Livestock and Poultry Inventory in Sarangani Province Third Quarter 2023 and Third Quarter 2024

Date of Release: 02 June 2025
Reference No.: 25R1280-SR-033

Highlights

The total inventory of livestock and poultry in the province as of 01 October 2024 was estimated at 1,035,160 heads/birds which was 1.7 percent lower than the recorded 1,053,249 heads/birds as of 01 October 2023. (Table 1)

**Table 1: Livestock and Poultry Inventory by Animal Type
Sarangani Province: Third Quarter 2023 and Third Quarter 2024**

Livestock/Poultry	Inventory (Heads/Birds)		Percent Change (%)
	As of 01 Oct 2023	As of 01 Oct 2024	
Livestock	121,116	123,500	2.0
Carabao	25,300	25,925	2.5
Cattle	12,022	12,850	6.9
Goat	24,950	25,698	3.0
Swine	58,844	59,027	0.3
Poultry	932,133	911,660	-2.2
Chicken	888,300	860,098	-3.2
Broiler	210,537	155,000	-26.4
Layer	76,000	90,000	18.4
Native/Improved	601,763	615,098	2.2
Duck	43,833	51,562	17.6
Total	1,053,249	1,035,160	-1.7

Livestock Inventory in Sarangani Province increases by 2.0 percent

The livestock inventory in the province increased by 2.0 percent, from 121,116 heads in the third quarter of 2023 to 123,500 heads in the same period in 2024. The rise was driven by all types of livestock commodities which posted an increase compared to inventory in the same quarter of the preceding year. Swine, with a total inventory of 59,027 heads, constituted the largest livestock population.

The total livestock inventory was comprised of carabao, cattle, goat, and swine. Cattle recorded the highest increase of 6.9 percent, followed by goat which reflected a 3.0 percent increase in the third quarter of 2024. (Table 2)

**Table 2: Livestock Inventory by Animal Type
Sarangani Province: Third Quarter 2023 and Third Quarter 2024**

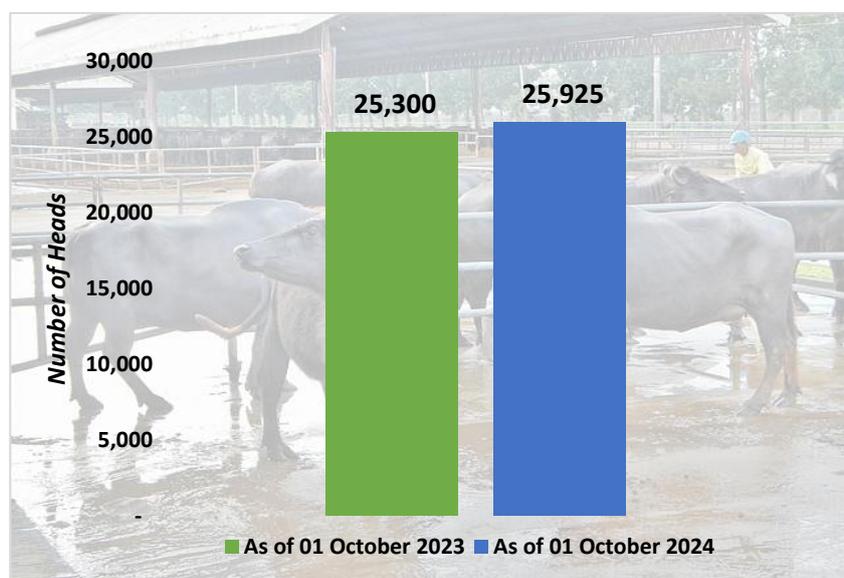

Livestock	Inventory (Heads)		Percent Change (%)
	As of 01 Oct 2023	As of 01 Oct 2024	
Livestock	121,116	123,500	2.0
Carabao	25,300	25,925	2.5
Cattle	12,022	12,850	6.9
Goat	24,950	25,698	3.0
Swine	58,844	59,027	0.3

Poultry Inventory in Sarangani Province declines by 2.2 percent

The poultry inventory in the province declined by 2.2 percent, estimated at 911,660 birds in the third quarter of 2024 from 932,133 birds in the third quarter of 2023. (Table 3)

Among the total poultry inventory in the third quarter of 2024, native/improved chicken recorded the highest inventory with 615,098 birds, followed by broiler chicken with 155,000 birds. On the other hand, duck registered the lowest inventory with 51,562 birds despite having a double-digit percent growth from its inventory in the third quarter of 2023. (Table 3)

The decline in the poultry sector was driven by the decrease in the inventory of broiler chicken by 26.4 percent.

Meanwhile, layer chicken posted growth of 18.4 percent, followed by duck with 17.6 percent. Also, the inventory of native/improved chicken registered a 2.2 percent increase from its inventory in the third quarter of 2023. (Table 3)

**Table 3: Poultry Inventory by Animal Type
Sarangani Province: Third Quarter 2023 and Third Quarter 2024**

Poultry	Inventory (Birds)		Percent Change (%)
	As of 01 Oct 2023	As of 01 Oct 2024	
Poultry	932,133	911,660	-2.2
Chicken	888,300	860,098	-3.2
Broiler	210,537	155,000	-26.4
Layer	76,000	90,000	18.4
Native/Improved	601,763	615,098	2.2
Duck	43,833	51,562	17.6

TECHNICAL NOTES

Data for this special release were collected by the Philippine Statistics Authority (PSA) through the two major agricultural surveys, namely: Backyard Livestock and Poultry Survey (BLPS) and Commercial Livestock and Poultry Survey (CLPS). BLPS and CLPS are conducted quarterly and collect data in household and establishment samples. The BLPS and CLPS generate estimates on supply, disposition, average farmgate price, and other related data of livestock and poultry commodities at the household level and from establishments, respectively.

Animal Population (also Animal Inventory) – the actual number of animals (in head/bird) present in the establishment as of a specific reference date regardless of ownership.

Livestock – farm animals kept or raised for consumption, work or leisure. In general, poultry is separated as a distinct group of farm animals. For purposes of census and surveys, livestock covers only those that are tended and raised by an operator.

- **Carabao** – a local term for water buffalo. It is a domesticated livestock characterized by its heavy built, low and wide body used in farms as draft animal and also suitable for milk production.
- **Cattle** – a general term for domesticated bovine animals held as property or raised for use.
- **Goat** – a domesticated hollow-horned ruminant mammal raised in farms.
- **Swine** – a domesticated animal characterized by a stout body, short legs with a long mobile snout and is commonly known as pig. This includes foreign breed, domestic wild pigs (baboy damo), and native breeds such as Q-Black, Markaduke, Sinirangan, ISUbela, Benguet, and Yookah.

Poultry – a collective term for all domesticated avian for the purpose of food consumption or, the carcass of such avian are processed for human consumption.

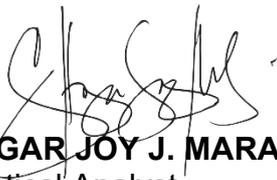

- **Broiler** – strains of foreign breeds of chicken, especially raised for meat purposes only.
- **Duck** – a general term for waterfowl.
- **Layer** – foreign strain chicken regardless of age, raised mainly for egg production.
- **Native/Improved Chicken** – a common backyard fowl that is a mixture of native breed and foreign breed/s which includes Banaba, Bolinao, Paraoakan, Darag, Camarines, and Joloano.
